is instructive commentary on the

Free trader that the Tariff is a tax, the

whole amount of which is paid by

the consumer, is

fulfilled by a

letter written to

Mall Gazette, by DAVID EVANS, agent for

the great English manufacturing concern

known as the Norwich Crape Company.

Speaking of the increase in the duty on

their product made by the new French

Tariff, Mr. EVANS says:

We sell crapes for the Norwich Crape

Company. To maintain the returns of the

business in France the directors of that

company instruct us to sell at or

nearly at the prices at which the goods

were sold before the duty of about 6 per

cent was put upon them. They wisely do

this as they (the Norwich Crape Com-

pany directors) say if we once lose our

position it will cost us 10 per cent to

displace our opponents, as Lyons manufacturers

of French crapes are within a

little of English make. The Norwich

makers simply give 4 per cent, or so of

their profits to the French Government,

and so pay 4 per cent, on about \$20,000

toward the taxes in France. You may

say—why do I try to keep the

machinery going without doing it?

English consumption is insufficient.

This statement of the case is exactly

true. English factories and machinery

cannot afford to remain idle, and if

foreign Nations choose to raise their

Tariffs, British manufacturers simply

relinquish part of their profits in order

to continue production and retain con-

trol of the market.

The Democratic cry of "retrenchment

and reform" is directed to the people as

a humbug. It was known to be a

humbug when the Democratic leaders

took it up. They knew that the only

place where retrenchment was possible

was in the pension appropriation, and

they also knew that no reduction there

was possible while there was a Re-

publican President and Senate. The

measure for reducing pensions has not

been framed and will not be until all

departments of the Government are

under Democratic control. Then it will

come along with free silver collapse

and Free-Trade.

ALICE IS INSANE.

So Declares the Jury—She Killed When

she Hears the Verdict—The Sister of the

Murdered Girl Robs Aloud.

MAKES THE VERDICT—Aug. 1.—Alice

Mitchell is insane. That is the verdict

brought in by the jury after five min-

utes' deliberation. Judge DuBois be-

gan reading his charge to the jury Sat-

urday morning at 10 o'clock.

Allice sat in her chair paying little at-

tention to the remarks of the Judge,

who all through the trial has made

both sides stick close to the facts. He

mildly excoerated the experts and in-

structed that any one could see from

the evidence that Alice Mitchell was

self insane if enough expert physicians

were brought in to swear.

He left it to the jury to contemplate

the evidence and decide for themselves.

After being out five minutes, the jury re-

turned and informed the court that they

had agreed. The verdict was then read.

It was: "We, the jury, find Alice

Mitchell to be insane on her plea of

present insanity, and we think it un-

safe unless she be confined in an

asylum.

The tears ran down her father's

cheeks.

Alice smiled.

The Insane asylum has no terrors for

her. A sob was heard in the far end of

the court room. It was Jo Ward, sister

of the murdered girl, who was weep-

ing.

Allice will be taken to the asylum at

Bolivar, Tenn., next week.

On her way back to the jail she chatted

with her relatives and seemed to be

in a splendid humor, free from any

care and regardless of her future. Lil-

lie Johnson, her sister, who is now in

the asylum, said that Alice Mitchell

probably never be tried. It is said she

will die of consumption in a few

months.

ANOTHER SERPENT MOUND.

Peabody Museum's Valuable Discovery

Near Ft. Ancient, O.

LEXINGTON, O., Aug. 1.—A very im-

portant archaeological discovery has

been made in Hamilton township. It

has been known for a long time that

there were evidences of mound build-

ings in the old Stubbins

farm, but from the peculiar lo-

cation and varied characters of

the fields they were not identified

until Dr. S. S. Scoville discovered that

they were part of a single earthwork,

a serpent mound. Prof. Putnam, of the

Peabody museum, has verified the dis-

covery and pronounced it one of the

greatest of American antiquities. Dr.

Netz, of the Peabody Museum and

World's exposition, has surveyed it, and

with Prof. Putnam is making ex-

plorations in it. The mound is nine-

hundred feet long and about ten feet

high. The famous Adams county

serpent is much smaller, and was sup-

posed to be the only one in existence.

The new find is seven miles below Ft.

Ancient, in a rich archaeological dis-

trict.

THE MAFIA.

Chief Gaster, of the New Orleans Police Force, Receives a Startling Letter From a Supposed Mafiaist.

Asking a Ransom For Judge Marr, Who Disappeared Last April—The Judge Will Be Freed on a \$10,000 Ransom—It Is Not Credited.

NEW ORLEANS, Aug. 1.—Chief of Police Gaster received a letter from what is supposed to be the mafia.

The letter was inclosed in an old envelope, with a skull and crossbones on it. It was sent from the New Orleans post office, and an air of mystery hangs about it.

The writer is not known, but investigations will be set on foot to find him, and matters will be pushed until he is discovered. Nunee appears to live in New Orleans, and to have connections in St. Louis. Following is the letter:

NEW ORLEANS, July 29, 1921.

To Chief of Police:

Sir—We have in our possession Judge Marr, who will deliver him in your hands for \$5,000 or \$10,000, whichever you wish. We will send you his old clothes, such as we found on his person, but we are in mind, not in body, to send you his body, which will be found with shot, that went for a ransom. This money must reach us within twenty days, unless you wish his rich car. For further information address general delivery. Post office, New Orleans or New Orleans. Respectfully,

It will be remembered that Judge Marr, of the criminal district court, in this city, mysteriously disappeared last April. He was old and feeble, and was last seen walking along the levee. The impression of his friends was that he had fallen into the river and was drowned, and that impression still prevails.

THE GREAT DISCOVERER.

Pope Leo Indites a Letter to the Bishops of Spain, Italy and the Americas.

ROME, Aug. 1.—Pope Leo XIII. has indited a lengthy letter to the bishops of Spain, Italy and the Americas, paying full praise to Christopher Columbus, the discoverer of America, and to Ferdinand and Isabella, who lent aid to his purpose. In the document he dwells upon the holy influence of the Catholic church, and the great event. He ends his letter as follows:

"In order to celebrate worthily, and in a manner befitting to the truth of the facts, the solemn anniversary of Columbus, the sacredness of religion must be united to the splendor of the civil pomp. This is why, as previously, at the first anniversary of the event, public actions of grace were rendered to the providence of the immortal God, upon the example which the supreme pontiff gave, the pope is now celebrating the revivification of the auspicious event. We esteem that we must do so much.

We decree to this effect, that the day of October 12, or the following Sunday, if the respective diocesan bishops judge it proper, they should, after the office of the day, the solemn mass of the very holy trinity shall be celebrated in the cathedral and principal churches of Spain, Italy, and the two Americas. In addition to these centers, we hope that upon the initiative of the bishops, and in the dioceses, in the others, for it is fitting that all should concur in celebrating, with piety and gratitude, an event which has been profitable to all.

"In the meanwhile, as a pledge of the celestial favors and in testimony of our fraternal good will, we affectionately accord in the Lord the apostolic benediction to you, venerable brothers, to your clergy and to your people."

A Word in Favor of the Iron Hall.

INDIANAPOLIS, Aug. 1.—The Globe Monday published an interview with Joseph L. Giles on the subject of a reversion for the Order of the Iron Hall. Mr. Giles was a representative in the legislature from Summit county during two sessions and served upon the insurance committee. He claims that disinterested endorsement of the event, opportunity upon the Iron Hall. He criticized Insurance Commissioner Merrill for allowing forty-two of those who were buying into the business in this state. He said there was no opportunity in the Order of the Iron Hall for protracted misfeasance of its officers, and he declared that he would not take \$995 for his present claim of \$1,000 upon the order.

LIGHTNING'S FREAKS

Curious a Colored Man's Limbs Impaled—Photographed the scene on his breast.

PHOTOGRAPHED the scene on his breast, a colored man, A. L. L., a curious phenomenon in connection with the deaths of the negroes, William Cassell and Solomon Richardson, in High street, and from a bolt of lightning.

It was that the foliage of the trees under which they sought shelter was photographed on the breast of one of the victims. The men were killed instantly. When the clothing was removed from Cassell's body an astonishing sight met the eyes of the undertakers. Across Cassell's broad breast was a picture true to nature. The brown oak leaf of autumn was there. Twining about the leaves were a number of ferns. These, too, with the exception that they, like the oak leaves, were brown, were as natural as his model. So exact were the leaves and ferns that even the minutest vein was discernible. It was as if when the men were killed. At a stroke lightning had struck the scene. The leaves began to fade. Slowly the dark brown gave way to a purple color. After the fading process had been completed, an ash-colored picture remained. There was another curious thing about Cassell. When his trousers were removed his lower limbs were found to be as white as the ash-colored picture. There was another curious thing about Cassell. When his trousers were removed his lower limbs were found to be as white as the ash-colored picture. There was another curious thing about Cassell. THE IRON HALL.

Somewhat the trend of the order, to be presented.

INDIANAPOLIS, Aug. 1.—The fact that Somerby started west from Philadelphia Sunday morning, and had not returned by the time the train arrived Sunday night, has determined the plaintiffs in the reversion suit to institute criminal proceedings against him early in the morning. An affidavit was filed charging him with perverting \$50,000 of the funds of the order to his own use in 1911, and fraudulently transferring large sums from Indianapolis to his bank in Philadelphia, and asking for a warrant for his arrest. The charge against Somerby will be perversion of the funds of the order. This is the same charge as that in the complaint, which has been expected all day. When the last train from the east arrived Sunday night without him, the attorneys began to think he is seeking to evade the officers of the court. Detectives will be employed to locate and arrest him.

FANCIFUL THEORIES.

The Link Telescope Shows the Supposed Cause on Mars to Be Nothing But Fancies.

LOS ANGELES, Cal., Aug. 1.—The giant telescope presented to the University of California by James Lick is making a record for itself during the present observing season. For several days observations of a most valuable character have been obtained by the St. Hamilton astronomers. The approach of the planet and its consequent brilliancy and size at this time have enabled observers to utilize the full powers of the instrument, with most interesting results. Drawings by all the astronomers exhibit numerous changes in its principal characteristics since the celebrated sketch made by the Milanese astronomer, Schiaparelli. Many of his almost fanciful details are shown to have no existence in reality. None of the "canals" are clearly defined or "geminated," as he depicted them.
